In autumn and winter, this is also a good place to watch the Northern Lights. Although the view is wonderful, you can't help but see an aluminium plant a few kilometres away.

Our Cottage has a spacious living, dining and kitchen area, 1 bathroom (sink, toilet and shower) and 2 bedrooms.

In one bedroom can sleep 3 people, the other 2 people.

The large patio with panoramic view also invites you to linger. You can park your car on our property directly in front of the parking sign for guests. The path on the left side leads past our house, directly to the Cottage.

# NORTHERN LIGHTS

Everyone dreams of seeing the northern lights ...

Here at our place can this wish come true !

In the period from **September until beginning of April** this is possible here.

However, it still depends on certain factors whether you see northern lights.

How strong the solar activity is. Whether the sky is clear and cloudless.

That you are at a place, where there is as little or no light pollution as possible.

You don't necessarily have to go anywhere.

Just walk up our driveway. Out of the light of our street lamp.

And look towards the north resp. mountain range, with the Cottage at your back.

**We also offer a free aurora wake-up service during the winter months !**
